

KX-NTV150

Communication IP Camera for Panasonic Communication Systems (KX-NS and KX-NSX)

KEY FEATURES

- Built-in speaker, microphone and camera
- Ability to record audio with HD video
- Integration with Panasonic PBX (Only KX-NS and KX-NSX series)
- Integration with smartphones and tablets for remote use
- Built-in Wi-Fi

Panasonic's new and versatile KX-NTV series ushers in a new era for business communication systems, thanks to a built-in camera and speakerphone, offering simultaneous video and high definition audio.

The uniquely flexible KX-NTV150 model also delivers surveillance and recording features, while the ability to connect to mobile phones and tablets allows for superior business communication, remotely and on demand.

As with all Panasonic products, the multi-usage KX-NTV series delivers world-leading technology, faultless reliability and cost efficiency for all businesses, whatever the size.
