

Early Warning Software - Easy predictive maintenance

ET-SWA100

Early Warning Software monitors projectors connected to an intranet

KEY FEATURES

- Up to 2048 devices can be monitored remotely from PC or tablet web browser.
- Advance notice of required maintenance
- Trouble prediction detection
- Quick response when problems occur
- Record the operating conditions of each device and, based on the operating hours, it can predict when consumable parts will be required, regular periodic cleaning will be necessary, and non-consumable parts will need to be replaced.

Monitors projectors and displays through intranet and detects or predicts abnormality or symptoms of trouble. Minimizes downtime and saves time and costs.
